

## SIGMA CAPITAL IS ACTIVELY SEEKING ALTERNATIVE ENERGY FINANCE PROJECTS

**S**igma Capital Group is actively seeking Project Finance client opportunities in the alternative energy and related industry segments. Sigma's principles have strong project finance experience, bringing their skills to bear on broad array of creative solutions to difficult financing problems.

**S**igma Capital typically looks for projects with the following characteristics:

- \$25-300 million in Project Finance
- Feedstock/ Offtake Agreements in place
- Permits in place
- Proven Technology
- Has highly capable management team

**S**igma Capital prefers Project Finance using the following technologies, however we will address other opportunities on a case -by-case basis:

- Biomass/Waste to Energy Plants
- Wind Turbine Plants
- Destination Ethanol Plants
- Hydro Plants
- Anaerobic Digester Plants
- Photovoltaic Plants
- Algae plants with proven technology

**W**e have experience, and can assist our clients, in creative

financing options. Our advisory and representational services cover the full spectrum of funding possibilities and development related activities, including:

- Construction Loans
- Senior debt
- Private Equity
- Capital Leases
- Carbon Credits
- Investment Tax Credits
- Purchase Power Agreements
- Fuel Source Agreements
- Land Lease Agreements

**W**e can also undertake advisory projects, or will collaborate with developers as principals where we bring added value. Our professional staff will advise and assist our clients through the contact, due diligence, negotiation and closing phases.

**S**igma typically prefers to represent the client on an exclusive basis, but will also consider syndication with other investment banks of similar quality and values. Our philosophy is to enhance enterprise value in an entrepreneurial yet disciplined environment that benefits the client, their customers, and their shareholders.
